Report of Independent Auditors

Board of Directors
Kettle Drilling, Inc.

We have audited the accompanying balance sheet of Kettle Drilling, Inc. ("the Company") as of December 31, 2005. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the financial statement based on our audit.

Except as explained in the following paragraph, we conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We did not observe the taking of the physical inventory as of December 31, 2004 and 2003, since those dates were prior to our appointment as auditors for the Company, and we were unable to satisfy ourselves regarding inventory quantities by means of other auditing procedures. Inventory amounts as of December 31, 2004 and 2003 enter into the determination of net income and cash flows for the years ended December 31, 2005 and 2004.

Because of the matter discussed in the preceding paragraph, the scope of our work was not sufficient to enable us to express, and we do not express an opinion on the financial position of Kettle Drilling as of December 31, 2004 nor the results of operations and cash flows for the years ended December 31, 2005 and 2004.

In our opinion, the balance sheet as of December 31, 2005 presents fairly, in all material respects, the financial position of Kettle Drilling as of December 31, 2005 in conformity with accounting principles generally accepted in the United States of America.

Kettle Drilling, Inc.

Notes to Financial Statements

1. Description of Business

Kettle Drilling, Inc. (“the Company”) is a closely-held company, and was incorporated as an Idaho corporation on December 13, 1996. The Company provides drilling services to the mining and mineral exploration industry across North America and worldwide.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Revenue Recognition

Generally, the Company recognizes drilling service revenues as the drilling services are provided to the customer. In some cases, the customer is responsible for mobilization and “stand by” costs when the Company deploys its personnel and equipment to a specific drilling site, but for reasons beyond the Company’s control, drilling activities are not able to take place. Usually, the specific terms of each drilling job are agreed to by the customer and the Company prior to the commencement of drilling.

Income Taxes

The Company has elected to be taxed as a small business corporation pursuant to Subchapter S of the Internal Revenue Code. Accordingly, in lieu of current federal income taxes arising at the company level, the shareholders are taxed on their proportionate share of the Company’s taxable income. As such, no provision or benefit for income taxes has been recorded in the financial statements.

Accounts Receivable

The Company’s accounts receivable are not subject to discounts and are generally due within 15 to 20 days of invoicing. The Company records an allowance for doubtful accounts based on specifically identified amounts that the Company believes to be uncollectible and for those accounts that are past due beyond a certain date. If actual collections experience changes, revisions to the allowance may be required. If all attempts to collect a receivable fail, the receivable is written off against the allowance.

Inventories

The Company values inventories at the lower of average cost or market. Allowances are recorded for inventory considered to be in excess or obsolete. Inventories consist primarily of parts and supplies.

Kettle Drilling, Inc.
Notes to Financial Statements

2. Summary of Significant Accounting Policies, Continued:

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally five to seven years. Equipment under capital leases and leasehold improvements are amortized over the shorter of the lease term or the estimated useful lives of the assets. When assets are retired or sold, the costs and related allowances for depreciation and amortization are eliminated from the accounts and any resulting gain or loss is reflected in operations.

Fair Values of Financial Instruments

The carrying amounts of financial instruments including cash and cash equivalents, trade accounts receivables, accounts payable, and accrued payroll and payroll-related expenses approximated their fair values as of December 31, 2005 and 2004. Line of credit balances and equipment notes payable are generally stated at their fair value based upon the terms of the debt.

Cash Equivalents

The Company considers cash in banks and other deposits with an original maturity of three months or less, that can be liquidated without prior notice or penalty, to be cash and cash equivalents.

3. Supplies and Parts Inventories

The Company's supplies and parts inventories are valued at the lower of average cost or market. At December 31, 2005 and 2004, the Company did not take physical counts of its supplies and parts inventories. The Company has estimated the value of its supplies and parts inventories based upon management's physical inventory records and available inventory cost information. In addition, management has reviewed the unit cost of its supplies and parts inventories to ensure that the costs are stated at the lower of cost or market value. At December 31, 2005 and 2004, the Company had materials and supplies inventories of \$493,904 and \$201,796, respectively.

4. Property and Equipment

Property and equipment at December 31, 2005 and 2004, consisted of the following:

	2005	2004
Office equipment	\$ 14,250	\$ 12,258
Equipment and vehicles	1,920,958	1,023,852
Leasehold improvements	<u>107,297</u>	<u>93,844</u>
Total property and equipment	2,042,505	1,129,954
Less accumulated depreciation	<u>(646,140)</u>	<u>(416,191)</u>
Property and equipment, net	<u>\$ 1,396,365</u>	<u>\$ 713,763</u>

Kettle Drilling, Inc.
Notes to Financial Statements

4. Property and Equipment, Continued:

At December 31, 2005 and 2004, equipment and vehicles included assets under capital leases amounting to \$819,676 and \$184,680, respectively. The leases are amortized over their respective terms. At December 31, 2005 and 2004, the accumulated depreciation related to these assets under capital leases amounted to \$129,511 and \$14,547, respectively.

5. Bank Line of Credit

The Company has a bank line of credit available at December 31, 2005 and 2004 of \$65,000 at prime plus 2.75%. This line of credit is personally guaranteed by the majority shareholder. At December 31, 2005 and 2004, the prime interest rate was 7.25% and 5.25%, respectively. At December 31, 2005 and 2004, the outstanding balance on the line of credit was \$63,937 and \$55,348, respectively.

6. Obligations Under Capital Leases

The lease obligations as of December 31, 2005 and 2004 were \$571,310 and \$141,716, respectively. Future minimum lease payments at December 31, 2005, for the related obligations under capital leases were:
